	Three False Shuffles by Justin Higham How many magicians avoid powerful concepts like the memorized deck or even Si Stebbins stack because they lack a practical and convincing in-the-hands false shuffle? On this DVD Justin Higham offers the results of 20 years' research into in-the-hands false riffle and weave shuffles, and teaches three basic techniques for the stand-up performer who wants to convincingly 'shuffle' a pack while retaining all 52 cards in order. Items include: 1. Side-Faro False Shuffle Side-Faro Sandwich 1 & 2 Key-Card Placement As a Control 2. Pass-Action False Shuffle Pass-Action Triumph 3. Hybrid False Shuffle and also variations that allow you to achieve 'in-the-hands Zarrow/Shank Shuffles', such as the Side-Faro and Hybrid Shuffles with applied Block Transfers. These methods have fooled top card experts in both Europe and the USA, but are designed for anyone who has progressed to an intermediate level in magic. http://www.penguinmagic.com/p/S7986		Historianan Barrier Barrier Antorian

904	Ken de Courcy : The Ultimate Faulty Follower	DVD	COLOMEINI MAGIC PRESENTS
	A classic comedy effect with a new twist. Having enticed a spectator up to help you, hand him eight jumbo cards and you say, 'Please give me any four and keep four for yourself.' This done, both you and the spectator carry out some simple movements but, when the cards are counted again, all your cards are face down while the spectator has one face up. This process is repeated with exactly the same result. There is obviously only one answer; the spectator will have to do the actions with both packets! He does so, yet your cards finish up all face down and the spectator still has one reversed! What makes the routine so strong is the fact that jumbo cards are apparently too large to manipulate, the sequence is worked on the classic 'three' formula and the method used each time is different. <u>http://www.world-of-magic.co.uk/Faulty_Follower_by_Ken_de_Courcy_Trick_i21080.asp</u>	You Tube Brasher You Wit Jon Tupe	ALBERT CHERFICASE ROLLEY FOLLOWER ALBERT CHERFICASE ROLLEY ALBERT CHERF

In spite of this, the magician names the card out loud. Of course, if one were to know how to bring the selected card to the bottom. The magician offers to show the spectator how this can be accomplished. The spectator again selects a random card and loses it into the deck. The magicians proceeds to do a mini-expose on how to bring the selected card to the bottom or face of the deck. The cards are then replaced into the card box. The selected card is named just like before. The magician remarks that if the card case is remotely suspected all that's to be done is to vanish the 'hole'. An interesting topic that is rarely touched upon in magic releases. Shot in an informal and deceptively casual manner, this DVD will add a powerful effect to the repertoire of any performer. 8925	Richard Osterlind : Whispering Die This is the effect Richard Osterlind has been carrying with him and using for over 40 years! It is one of the most baffling and mind-blowing pocket mental effects you will ever use. Here's what happens: A spectator puts a regulation casino die into a small wooden box and notes the number on top. The lid is closed and he verifies there is NO WAY to see the number. The performer takes the box and shakes it near his ear. He then names the number! This is repeated a second time with absolutely <i>no clue</i> as to the working. For the third time, the spectator puts a rubber band around the box and shakes the box himself! Still, the performer names the number! The method utilized is a secret taught to Richard Osterlind by none other than famed magic dealer Louis Tannen in 1973 and only purchasers of the Whispering Die will ever possess it. It has fooled <i>every</i> magician who has ever seen it. In short, it may very well be a <i>perfect effect!</i> And now for the best part — this apparatus has been completely re-designed by Richard Osterlind and then hand-crafted to his specifications by our master woodworker to perfection! 	The great Card Magic of Nick Trost. Nick was a master in creating amazing tricks and routines based on subtleties rather than difficult sleight of hand. Due to the amazing success of the three download set we produced and the numerous requests, here's another one, the fourth in the series. This is a humble tribute to a very creative magician. Most of these tricks are impromptu and they all use a regular deck of cards. CONTENTS: THE GATHERING OF THE COURT CARDS: A great nine-card assembly, with Jacks, Queens and Kings! THE SLIPPERY ACES: The Aces are sandwiched between the two red Jacks. They disappear and reappear between the black Jacks! TOPSY-TURVY ACES: The Aces are inserted in the middle of the deck which is shuffled with some cards face up and some face down. At the end, all the cards are face down except the Aces! DEAL AND DUCK POKER: Ten cards are used. The spectator picks five at random. You end up with a Royal Flush! CARDS AND DICE PREDICTION: Two dice and a deck of cards. A card is selected by throwing the dice and the same dice find it! ELIMINATION: A card is chosen and you show the entire deck card by card. The selection is gone! It will re-appear face up in the middle of the deck! THE FIFTH HOTL MYSTERY: Queens and Kings are shuffled in pairs, but at the end the Queens are all together and so are the Kings! M-U-M MIRACLE: A spectator THINKS of any card. You reveal it, without any clue, with a method that will blow them away! ELEVATOR CARDS: The name says it all. The classic elevator theme, the Trost way! TROST ON AL KORAN'S "PREDICTION SUPREME": You place three predictions on the table and three spectators pick a card each. 	Hoarders Four Kings are placed into a card box and three selections lost in the deck. When the card box is opened again - the selections are seen sandwiched between the Kings. With a pinch, the Kings disappear - leaving only the selections behind - and the Kings? Face up, in the middle of the deck. Morph This is how a color change really should look. A single card morphs back and forth between a Queen and a Four, with a wave of the hand before being handed back to a spectator, one card - completely changed. Side Effect An effect where your imagination is the only limit. The writing on the side of a deck of cards changes with a wave of the finger. Anything from 'Your Card is' changed to 'Three of Hearts' through to 'Happy Birthday' changed to '(Spectator's Name)'. Great for conveying a personal message - or using as an 'Impromptu Magic 8 Bail'. On Point A chosen card is lost in the deck, and the Artifice Joker enlisted to help find it. With a flutter of the card, the joker points to wherever the spectators card is located - even when he's moved away from the deck. Eric Jones breathes life into the deck's mysterious gentleman. Angle Z While Madison devotes a whole DVD to Angle Z- here, this is the incredible Gaff System Version. The corner of a card is ripped off and then gently balanced on the card's back. Slowly the card is tilted - with the corner defying gravity, staying stuck to the card. Not just stuck - melted. Half Vanish Like an Erdnase Change in slow-motion. An out-jogged card slowly vanishes from the deck, visibly dissolving through the top card in the deck, until it's completely invisible. A gorgeous piece of magic. Maging have be to regular size. Peek Box Daniel Madison exposes a trick Gambler's use to peek the bottom card of the deck - a rip in the tuck box shows the index. However when a spectator's card is involved, things don't go the way you'd expect. A baffling trick hidden in a gambling demonstration. 	Roberto Giobbi : Penguin Live Online lecture <u>Calling the Cards</u> A spectator takes cards from a shuffled deck, and the performer knows which ones he is thinking of. An apparent mistake is corrected by an amusing and totally baffling prediction. Discussion of how to manage an audience member, how to interact physically in parlor situations, how to stage the divination of cards so as to make them look like mind-reading, and a fresh look at predictions (not only cards!).		PEN JIVE ONLI CURE

	Teach-in session on various false shuffles retaining partial and complete order of deck apt to be used in parlor situations, such		
	as the underused Greek Shuffle, the little known Frank Lane Shuffle, and the yet unpublished Combination Shuffle. Thought Card in Cigarette		
	In the course of a game of Swiss Poker, which is played with imaginary cards, a freely named card appears in a cigarette (or other object of your choosing – you do not need to be a smoker for this trick). This is one of the effects with which Roberto Giobbi has fooled many of his colleagues at international conventions. Explained here for the first time in detail.		
	Discussion of the creative process behind a magic trick, with the explanation of how to practically use Mind Mapping to reach original solutions. Also, an analysis of how to combine verbal strategies, shrewd methods and sleight-of-hand. <u>Card Stab</u>		
	This has been Roberto Giobbi's finale trick in his professional stage act for the past 25 years. Revealed here for the first time with all details and subtleties gained from a lifetime of experience. 8 minutes of solid entertainment, amusing and mystifying. <u>Twice As Difficult</u> The Jim Ryan classic "Vice-Versa" revisited: in the course of a trick, which is "twice as difficult" as the most difficult card trick in the world, two thought of cards are produced, and then unexpectedly change place. Discussion of how to logically stage unusual looking procedures, how to control two cards at the same time, and how to handle the difficult and often confusing issue of transposing two cards. With special attention to the management and handling of the Double Lift & Turnover for stage. <u>And This IS Your Card1</u> A most unusual trick in which a "wrong" card oddly changes into the "correct" one – with lots of laughs, and even more mystery. This might be dubbed the "Paper Balls Over Head" of card magic. With an in-depth discussion of the classic top change and variations thereof and special emphasis on the psychological construction of a trick, as opposed to the technical and dramatic construction. <u>Homing Card PlusPlus</u>

	A souffle cup is an overlooked item at many restaurants but it is something that we find ourselves using all the time. They are fantastic for keeping good things in and bad things out. That is where senses changes. What you will learn on this 110 minute long DVD will allow you to take this simple item and perform the impossible. It is an updated rattle box, change box, vanisher and much more. Senses Have a spectator take a coin, ring, dice, or whatever they can and put it into the cup and close the lid. You take the cup and shake it. They hear the item, but it slowly starts to fade away until they hear nothing. You then can show the inside of the cup and the item is now gone. You can then bring it back right in their own hands. Ketchop Cup A neat update to a chop cup style routine. You have a coin put into the cup with the cap on. You put the cup face down and wave your hand over the cup and instantly the coin jumps to the top of the cup. You can then make it penetrate back into the cup for a visual ending. TCOC using one cup you can take a coin and have it penetrate the bottom of the cup, and then through the lid of the cup and even through the bottom of the cup off the spectator's hands. Beggars Dream Show an empty cup and one half dollar. Your hands are completely empty. Take the half dollar and drop it into the cup and it instantly turns into two quarters. Beggars Dream Show an empty cup and empty hands. Grab an imaginary coin out of the air and drop it into the cup and the coin instantly materializes into a real coin. Contained Have a cup with a prediction card inside. Have the spectator pick a card and loose it in the deck. You then show the card that is sealed inside instantly changes into their card. With a wave of your hand the card sealed inside instantly changes into their card.		SECURITOR SECURI

	A card is selected and can be signed if desired. The card is returned to the middle of the deck, which is then spread face-down on the table. The two Jokers are placed face-up clearly and cleanly at each end of the spread and the pack is squared. Immediately and with no moves the deck is re-spread, showing that the Jokers have jumped to the middle of the deck - sandwiching one card between them. It is the selected card. Prisoners requires no skill to perform, yet achieves an incredible audience reaction because the process is so fair and direct. This directness also allows you to perform without speaking, so it can be done in loud environments or for audiences who speak a different language. This is a perfect closing piece for a card act and is an ideal choice when you can only show one trick to an important client. http://www.penguinmagic.com/p/S16322	You Tube

9034	Robert Bengel : Mirrors and Smoke (volume 1) Robert has recently come out with a new, 3-DVD, set that is geared toward teaching the true fundamentals of magic for the beginner, intermediate, and advanced artist looking to improve his/her skills. The DVDs were shot with a different approach, teaching basic sleights in a way to improve your overall performance and presentation. Clever, and innovative, use of "cut-aways" to give you a better perspective and cleaner look at the critical aspects of every sleight. Studying, and perfecting, the foundations will improve your performances and your overall presentation skills – because you will be concentrating on presenting and not sleights.	DVD	CONVINCING
	The second and third DVDs dig deeper into the corporate world, offering insight and tips on working corporate events. Putting all three DVDs together, this will become a staple in your magic library, giving you a great reference site to learn a sleight, or determine how to routine effects to put a revenue-earning set together for your next big show.

	You won't believe this even after we reveal the secret! Kenton has called this method by Ben Highway "One of the great breakthroughs in magic and mentalism" and "the most exciting new concept I have seen in years". You are about to find out why. A deck is spread face down between the hands, and then face up. A freely selected card is pushed through the deck. The selected card changes color instantly! No moves, no nada. Just a pure and direct color changeas it should be. The card is rubbed against the deck and the rest of the deck is now seen to have changed color too. Now get this: The deck can be entirely examined, and there is NO SLEIGHT OF HAND. The deck changes color not by trick props or maneuvers but rather by mental influence! In fact, some of the audience may not become hypnotized and see nothing happening, or imagine another trick entirely! This trick and its amazing method are not for the mildly curious. The method is easy to do; yet it will have your head reeling once Kenton reveals the exciting reality. Kenton details all the incredible principles behind this effect, how they work for you, and how to perform it so that you can never fail. Complete with additional text, patter options, reminders of the psychological principles, and more. This controversial effect will change the way you view magic and mentalism forever! 9058	Shin Lim : 52 Shades of red (volume 1)	DVD	5 H + N _ L + M
	52 shades of red: This is the featured routine shin uses in his professional stage act. It is the cleanest possible color changing deck ever conceived. Imagine showing every single Blue Card in the deck. Next, you turn the cards over and show the pips of every single card. On your command the deck changes from blue into red. You turn once again to show the face of every single card is now blank. (A live performance of 52 shades of red was recorded in Beijing China and is shown on the DVD.) This act alone is worth the price of the DVD package. Color changing box: possibly one of the cleanest color changing box effects ever. The audience sees all sides of a blue box. And with just a wave or toss (whichever you prefer) the card box changes into a red box of playing cards. Again, you can show	You Tube Pradeer You WY AON TOPOS	529HADES OF RED
	every single side of the box cleanly. Impossible card vanish/color change: The title explains it all. Imagine cleanly showing two jokers and an ace of hearts. The spectators can also examine the cards if you want them to. You then place the ace in between the two jokers and in a split second the ace vanishes cleanly in between the 2 jokers. You can show all sides of the jokers. Shin teaches you how to use the same gimmick in order to perform one of the cleanest color changes anyone can perform.		
	Bonus section: Imagine showing 4 aces that are blue backed. With just a wave, they turn into 4 kings that are red backed. Also included in the DVD shin teaches you how to vanish an entire pack of cards in an extremely clean manner.

9068	 John Gelasi : Card Creations (volume 1) OFF-TEMPO ACES: Four blacks change places with the four aces, all leading up to a kicker ending that nobody will see coming! TOP BILLING: The magician produces the three mates to a selected card in three unique, spectacular ways. Easy to do, but a real crowd-pleaser. DEFECTIVE: A direct and simple transposition effect with a fun, unique presentation. NEAR-SIGHTED JACK SANDWHICH: A killer double sandwich routine using the two one-eyed jacks, but with a little difficulty. Eventually, the other two jacks make a surprise appearance. DALEY PLUS 2: An updated handling of John's February 2012 Genii magazine effect. Dr. Daley's classic plot with the four kings, two selections, and an incredibly impossible card-in-box ending. HOLD UP: John's version of the famous "Ambitious Classic"; Ace, 2, 3, and 4 of spades rise to the top of the packet (even visually!). At the end, the ace vanishes and reappears in an impossible location. THIS MIGHT BE A PROBLEM: A unique and different approach to the Hofzinser Ace Problem with no forcing or peeks of the selection (honest!). OIL, WATER AND PROM: Three red cards and three black cards are used for a four phase routine full of visual, spectator-engaging magic; fun O & W routine that you'll love doing. YES, WE CAAN: A super easy yet extremely effective new spin on the "card at any number" plot using an old principle; I think you'll really like this one. SPACE MOUNTAIN: Tons of magic in this multi-phased routine using only four cards - cards transpose, rise, twist, change, and more 	DVD	Cordions T
9069	John Gelasi : Card Creations (volume 2) SCATTERBRAIN: "B'wave" meets "King Thing"! A selected ace appears in a packet of jokers, and the other three aces "scatter" to various locations (the card case, etc.). THE GHOST TALKS: A mentalism-style spirit slate routine, but using playing cards. A neat change of pace that fits nicely into any card set. J.G. MONTE: John's impromptu 3 card monte routine; lots of magic and surprises in multiple phases in this classic con where you just can't win. HOF WITH A TWIST, AGAIN: Four kings and a selected card. The king of the same suit as the selection reverses multiple times, then switches places with the selection in the spectator's hands! ESTIMATION: A demonstration of estimation and magic with a deck of cards leads to finding the aces one-by-one with the help of a spectator. RE-PRODUCTION + FOURTH FLOOR: An easy and extremely magical way to produce the kings and aces. The two sets of cards are then used for a fun elevator routine full of magical moments, inspired by Nick Trost.	DVD	A Cordions I

	DOT DOT DOT: A card merely "created" by a spectator rises to the top of the deck with no funny moves whatsoever; a real fooler using a brilliant principal. SELFSAME: Inspired by "Dupes" by Cameron Francis; using four cards, the magician locates the spectator's selection, causes the cards to have backs on both sides, change into jokers, then finally, change into four of a kind. Phew!		
	BIG MISTAKE : Fun, quirky magic with three jokers and a king; lots of magic in just a few cards! A.P. ASSEMBLY : An implicit new approach to the classic assembly with a unique second phase in which one card travels between the deck, the packet, and the indifferent card

	Cutting the Kings A remarkable way of cutting to the kings when the cards are thoroughly shuffled in a topsy-turvey fashion some face up and	LOU UDD	TROUGH

	Rise Rise Rise This trick is worth the price of the DVD alone and was a hit at the Blackpool Magic Convention 2011 it fooled every magician		All and a second
	that watched us demo it! A chosen card is placed in the deck and a coin is signed and placed on a face up deck on an		
	indifferent card. The deck is covered by the hands for a split second and instantly the card underneath the coin changes to the selected card. This also has a surpise finish!		
	Curzons Convincing Control		
	A really useful and clever way to control a card to the bottom of the deck while convincing the spectator that it has definitely gone in the center as they push the card in themselves! Surprise Aces		
	A super routine whereby a chosen card multiplys itself four times and then all four cards instantly change to the four aces!		
	Variations Variant Another great ace routine where a chosen card vanishes from the specatators own hands while also being trapped by the four		
	aces only to reappear in the deck reversed!		
	Joker Sandwich A card is taken out of the a red pack as a prediction which is sandwiched in between two blue backed Jokers. A spectator		
	names ANY card only to find it is the one between the jokers!		
	Second Deal Roger explains his amazing second deal in detail!		
	Pseudo Center Deal Routine Roger explains how to apparently deal the aces from the center of the pack! If you want to do gambling exposes then you must		
	learn this, you will love it!		
	Deck Reverse Supreme Most people think that magicians sometimes reverse one card in a deck but Roger proves that actually a deck actually reverses		
	itself around a card! This is really visual! Coincidence in Millions		
	8 cards used, numbered Ace through to Eight. The spectator puts the cards into a random order. Roger then takes a calculator		
	and asks spectator 1 to type in any 6 digit number and then askes spectator 2 to multiply it by any 4 digit number they think of. When the number is read out it matches the order the cards are in! Literally a coincidence in millions!		
	Wipe Out Queens Routine		
	A beautiful and complete routine where Roger finds the queens in some amazingly novel ways! A routine worth learning! (Ed - we use this trick all the time and the spectators just love it!)		
	Erdnase/ Miller Colour Change		
	You may have seen magicians change a card by swiping their hands over a deck, Roger shows you how to change two cards at the same time just beautiful to watch!		
	Vernon's Cutting the Aces Roger's handling a great gambling classic of magic!		
	Thanks to Vernon 4 Ace Production

Jason teaches how to control a single card to the bottom (or near the bottom) of the deck. Furthermore, he covers the control of a group of cards in a single location and as a group in different locations of the deck. If that wasn't enough, Jason provides the control of multiple spectator selections for magic applications. 9168	Max Maven : Penguin Live Online Lecture Orson Welles wrote that Max Maven has "the most creative mind in magic." Here's your chance to find out why. Max Maven has performed around the world, with hundreds of television credits and over two thousand tricks, essays and articles in print. He'll bring that knowledge and experience to Penguin Live, for a teaching session you won't soon forget. As you would expect, the emphasis will be on mentalism, but with ideas that can be applied to every type of magic. You'll learn commercial, practical effects that will fool you first, and delight your audiences later. Be prepared for offbeat plots and intriguing methods, with a special emphasis on aspects of psychology and audience management. The lecture will include material that Max has never taught before, including a cunning book test, intimate mindreading using business cards, baffling hands-off card work, and a curious use of the Internet. Your host for this event will be the canny and insightful Michael Weber, who will discuss details with Max that address your questions, in real time. http://www.penguinmagic.com/p/4190	DVD	PER CINE

9170	Peter Turner : Jinxed (volume 1)		DVD		 10 (20)
	If you have ever tried to get hold of material by Peter Turner, you'll know how his training material sells out in record time only to become highly collectable, as mentalists fight over getting access to the rare copies that change hands from time to time. How do you define genius thinking in magic? It's the ability to hold all the current thought in a field of study, then step right out of it to create new techniques or approaches that have such a large creative leap, that they can change the direction of thinking in that field. Peter Turner embodies this ability. His methods are creative and bold and his performances are faultless. He truly gives an experience that will stay with them forever. Jinxed is Peter's contemporary take on Annemann's core work in mentalism. If you are serious about developing your abilities in mentalism, now's your chance to add Peter Turners knowledge to your collection.		on Tupe		Jinxee ^g

	Qi Touch Performer places a metal object (key, spoon or coin) into a participant's hands. He steps back behind her and projects energy at her from a distance. The participant FEELS THE ENERGY and drops the object, which is then shown to be bent. Hero Brand new method for making a freely chosen number appear in ash on the back of the participant's hand; the performer's hands are clearly shown empty the entire time. It's Key One-handed key-bend: including a totally "no-tech" version and his "electronically-enhanced" version. Overkill An exercise in eerie in which a participant correctly matches the photos of five murder victims with their Victorian Era killers.				ON CONCE

9192	 John Carey : Keep Calm and On Carey 1. The Teleport Card. Inspired by Darwin Ortiz's psychotronic card, this approach to the classic mystery card hits hard and will create a striking impression. No weird moves, just elegant construction and routining. 2. My Luck and your Thought. An extremely efficient and practical impromptu invisible deck style piece. A genuinely thought of card is revealed in a very sly and effective manner. 3. Homage to Marlo. Johns self working approach to Ed Marlo's ace of spades trick. A very effective one phase hands off approach to this classic effect, using a utility concept useful for many effects. 4. Extracted from the dark. A beautiful hands off discovery of a mental selection. You will add this to your repertoire immediately. 5. Take Her Home and Poker. From a spectator shuffled deck, Lady Luck will always shine on your spectator as they always get an unbeatable hand of poker! Features Johns shuffled Ose subtlety. A great utility in its own right. 6. Me and my Shadow. Inspired by a wonderful Tony Binarelli idea, this two deck routine will get you great reactions! Features John's work on a classic Hofzinser technique and an amazing finale. 7. It's a Mysteryy. A solid, practical approach to the classic mystery card effect. Technically simple and powerful. 8. Think a Think. Would you like a simple, powerful and reliable think a card technique? Look no further as Carey tips his work on this topic. 9. Another Kickback. John's gaff free approach to a Ryan Swygert effect. No tough moves. Simple and direct. 10. A mystery in Time by George McBride. John's great friend George McBride very kindly allowed him to share this beautiful handling of the mystery card. We honestly believe this is one of the finest methods to date! 11. Thought Trapper. A mental sandwich effect you will love using. Sneaky and devious! 12. Out of Sight, Change your Mind. Carey's stripped down approach to
